1. [] the leading official of the State Administration in charge of liquid fuels, stated that the planned quantity of gasoline would not be produced in 1952 and that production would probably be short 7,000 tons because the SAG hydrogenation works did not supply the refineries with sufficient quantities of light oil as scheduled in the 1952 plan. []

25X1

25X1

2. In late 1952, plans were discussed in the GURC³ to abolish the contingents for gasoline and Diesel oil and to sell fuel only through the HO at increased prices. [] this measure would concern the owners of private cars only, as all motor transport enterprises would soon be nationalized.

25X1

25X11. Comment. As only types of gasoline and Diesel oil are known to be exported to the U.S.S.R., the information on the export of light oil seems improbable.

25X1 1.

25X1 2. Comment: Deutsche Fernleissentrale - Kraftstoffe und Mineraloel.
